**INTERNATIONAL RELATIONS NATIONAL UNIVERSITY OF MAR DEL PLATA
FACULTY OF PSYCHOLOGY**

The Faculty of Psychology maintains its unwavering commitment to Public, Free, Secular and Quality Education. Its objective is to guarantee the formation in a scientific and technical discipline, open to different theoretical, epistemological and methodological currents of the country and the world in accordance with the demands of a society in constant transformation and change. The training granted by our Academic Unit promotes an adequate professional performance in different occupational fields such as: health, education, institutional, community, legal and labor. The Faculty has a strong commitment in Human Rights and the promotion and implementation of the National Mental Health Law, as well as the development of Socio-Community Practices and the Gender Perspective. It offers a pluralistic scientific training suitable so that its graduates can be integrated into different interdisciplinary fields with a sociopolitical vision to address the analysis of professional practices with the ability to compare them with changing needs and demands at international, national, regional and local level.
